2. Patient records / municipal EHR
3. Collaboration and patient flow
4. Remote monitoring and welfare technology
5. Information security and infrastructure
6. Platform and interoperability
7. Patient experience and digital journeys
8. International innovation zones
9. Public governance

Contact [monika@ehin.no](mailto:monika@ehin.no) to participate and indicate your preferred themes.

You may also suggest other relevant themes. There is no extra cost.

- Speaker meets at meeting point 15 minutes after their talk
- 30 minutes available to talk with interested participants
- Clearly marked in program and app/website

Location of meeting point:

- Partner speakers: at partner’s stand

Communication to participants:

- In program and app
- Push notification in app right after the talk
